TEN CENTS A WEEK

STRICT QUARANTINE IS BEING MODIFIED

Many Towns Near New Orleans
Now Infected.

SITUATION IS PRACTICALLY SAME

Authorities Have Started Campaign of
Fumigation—Crescent City Will Not
Quarantine Against the Surrounding
Towns as First Reported.

New Orleans, August 28.—There has
been 15 new cases of yellow fever and
5 deaths reported to the authorities.

New Orleans, La., August 28.—The
state board of health is receiving ad-
vice from some points in the state of
modified quarantines, resulting from
its own campaign of education and
the fact that centers of infection out-
side of New Orleans are disappearing
here and there. The fact that none ex-
cept the first imported cases have ap-
peared at Shreveport, or Hunkle, and
that the Bon Ami infection in Calca-
sien is likely to be wiped out is mak-
ing an impression on skeptics who
at the beginning placed little faith in
the mosquito theory. At all three of
these points the fever was scientifically
treated, and apparently success-
fully. The result is shown in the fact
that Natchitoches and other points
are raising their quarantines or modi-
fying them.

Fumigation Order of Day.

Following the appeal of the Marine
hospital authorities, a large number of
householders today are engaged in
fumigating their premises. Many
others, it is expected, will do so to-
morrow. It is estimated that 25 per
cent of the households disinfected
last Sunday. If 25 per cent more
follow suit this week there will be
measurable satisfaction.

Within the next two weeks it is an-
ticipated that all the premises in New
Orleans will have been treated to sul-
phur or pyrethrum treatment. That
they should be, is considered essential
to the success of the federal plan.

Professor Boyce, of Liverpool school
of tropical medicine, has visited the
emergency hospital and seen yellow
fever cases there for the first time.
There is a number of typical
cases under treatment and they inter-
ested the Liverpool scientist very
much. Professor Boyce said that
from what he had seen here during a
brief inspection everything possible
was being done by the federal author-
ities to control the fever the organi-
zation was excellent and there was
every promise that the fight would be
successful. Professor Boyce believes
absolutely in the stegomyia as the
only means of transmission of the dis-
ease.

The announcement of yellow fever
at Gulfport, created no surprise here.
It was anticipated from knowledge in
possession of the local authorities. All
the coast towns are now extending
their quarantines to Gulfport. Biloxi
has thrown a cordon around herself
and Bay St. Louis, Pass Christian and
other cities are following that course.
There will, however, be no general
quarantine by New Orleans against
either Gulfport or Mississippi City.

The discovery of additional cases
at Lake Providence threatens to bot-
tle that town completely, and will
handicap Governor Blanchard in his
efforts to restore railroad communi-
cation in that portion of the state.
Fortunately for Lake Providence, there
is a private hospital there and it has
been placed at the disposal of the au-
thorities.

The state board of health will send
nurses from here to the Lake Provi-
dence people. Dr. Macdonald and his
band of nurses are expected to reach
stricken Leeville today. President
Bouchon and party went to Patterson
today and will determine whether the
state board shall take full charge of
the situation there.

Of the two cases that have appeared
in St. Tammany parish, one of them
has died, and the other has recovered.
Both were traceable directly to New

Orleans. Both developed in isolated
sections of the parish and were thor-
oughly protected. So perfect is the
confidence that the fever will not live
in St. Tammany owing to the absence
of stegomyia that while thousands of
New Orleans people are now located
in St. Tammany, others continue to
go there.

The authorities of St. Bernard have
reconsidered their action in the mat-
ter of the shipment of fruit from Chal-
mette. It has been demonstrated to
them that there is no danger of in-
fection under the present rigid rules
of detention and the precautions that
have been taken by the fruit compa-
nies and the parish authorities have
notified Dr. Walte of their willingness
to let ships land within the limits of
the parish.

The city authorities have taken steps
to supply mosquito bars to the parish
prison houses or refuge and jails as
a result of a recent report of the
grand jury. The necessity for this
has been emphasized by the appear-
ance of two cases of yellow fever in
local prisons.

OPEN SHOP FOR PRINTERS.

Chicago Typothetae Declares War Up-
on Typographical Union.

Chicago, August 28.—Chicago today
became the center of a struggle of em-
ploying printers throughout the coun-
try against the International Typo-
graphical union to defeat the latter's
attempt to secure the 8-hour day.

Open shop notices were posted in
four of the large printing establish-
ments, members of the typothetae.

The spirit of the independent decla-
ration will be carried out by the em-
ployment of non-union printers at once.
Other members of the typothetae have
planned to follow suit. Union officials
say that the first nonunion man to ap-
pear in any of the typothetae estab-
lishments will be the signal for a gen-
eral walk-out in every plant controlled
by the master printers' organization.
More than 20,000 job printers through-
out the country may be involved event-
ually in the struggle. The 9-hour day
prevails at present, and the employ-
ers contend that they have the right
to employ men according to their
worth.

A strike of job pressmen may fol-
low, but this has not been determined
definitely.

NEW LIFE INSURANCE COMPANY.

Plan Is to Form Organization for Pol-
icy Holders' Benefit.

New York, August 28.—According to
reports circulated yesterday in the
financial district a new life insurance
company is being organized and more
than \$3,000,000 already has been sub-
scribed toward its capitalization. The
list of men who have signified their
intention of taking stock includes some
of the wealthiest and best known
financiers in the country.

It is understood that promoters will
not take definite steps toward begin-
ning business until \$5,000,000 has been
subscribed.

Non-participating policies will be is-
sued and it is planned to make the
cash value of these policies, the
amount of the reserve. In other words
if the policy holder desires to realize
on the policy during his life time, at
the legal reserve will be paid to him
less 5 per cent.

Killed by Sister-in-Law.

Nevada City, August 28.—Robert
L. Wimberly has been shot and
killed at Downsville, by his sister-in-
law, Bertha Bennetts, aged 17. The
cause of the shooting is unknown.
Wimberly was killed with a revolver.
The shooting occurred at a ranch a mile
from Downsville. Miss Bennetts, who
was immediately placed under arrest,
refused to talk. Wimberly leaves a
wife and two children.

Will Not Call Out Troops.

Chattanooga, Tenn., August 28.—Gov-
ernor Cox, in a telephone interview,
said he did not think it necessary to
send troops to Tracy City, where two
coal miners were assassinated pre-
sumably by union miners. The gov-
ernor may go to the scene of trou-
ble. A joint convention of union min-
ers and operators will be held at Tar-
cy City today, 500 men have been out
of work there for 14 months.

JAPS MUST RECEDE IF THERE BE PEACE

Russians Declare They Cannot
Accept Proposition.

ROOSEVELT'S APPEAL UNHEEDED

No Apparent End Is In Sight at Peace
Conference—Both Powers Refuse to
Yield, and It Looks as Though the
War Will Continue.

Portsmouth, N. H., August 28.—Pres-
ident Roosevelt's intercession at Pe-
terhoff and Tokio has not been suc-
cessful as yet, but enough progress
has been made to insure the prolonga-
tion of the negotiations beyond today.
A certain result has been achieved at
St. Petersburg but if there is event-
ually to be peace Japan also must
change her attitude. The re-purchase
of the northern half of Sakhalin Island
still points the clear road to the only
possible compromise, but it must be
a purely commercial transaction, not
a claim for indemnity in disguise.

There had not been the slightest in-
dication upon 11 o'clock this morn-
ing that Emperor Nicholas would re-
cede from his announced determina-
tion not to pay tribute under any
form. And, in the quarters most com-
petent to judge, there is not the slight-
est prospect of a change. But if Ja-
pan would bond, if she would re-
nounce formally her demand for "re-
imbursement for the cost of the war,"
by the withdrawal of the price she sets
upon the northern half of Sakhalin
and frankly make other proposition to
sell the island on a commercial basis, it
is difficult to see how Emperor Nicholas
having already acceded to the old
conditions proposed, could refuse.

Conference Held in Paris.

Paris, August 28.—Premier Rouvier
had a long talk at the foreign office
today with M. Jusserand, ambassador
to the United States. Its nature has not
been disclosed, but it is presumed
that it related to American affairs and
to the general status of the negotia-
tions at Portsmouth. However, the
government is not giving any outward
signs of activity in connection with
the peace conference owing to the
sensitivity of French relations with
Russia.

Information from officials at St. Pe-
tersburg shows that Ambassador Mey-
er's meeting with the emperor lasted
only ten minutes and was not produc-
tive of notable results. The brevity of
the meeting is looked upon as an un-
favorable sign.

Czar Likes Roosevelt's Attitude.

Berlin, August 28.—The Associated
Press today received the following
communication from the foreign office:
"The foreign office empowers the As-
sociated Press to declare that all re-
ports over the opposition of the em-
peror to the mediation of President
Roosevelt are absurd. The emperor
regards the endeavors of the presi-
dent with admiration and takes the
greatest interest in the success of the
labors for peace, in whose beginnings
the emperor personally assisted."

Mayors Elect Officers.

Toledo, O., August 28.—The League
of American Municipalities concluded
its convention by selecting Chicago
as the next meeting place. The follow-
ing were elected officers of the league:
President R. G. Rhett, mayor of
Charleston, S. C.; first vice president,
Henry Bohl, Columbus, O.; second vice
president, Joseph E. McCafferty, of
Williamington, N. C.; third vice presi-
dent, George F. Hine, of Poughkeep-
sie, N. Y.; fourth vice president, F.
S. Torrance, Toronto, Canada; secre-
tary, John MacVicar, Des Moines;
treasurer W. D. Morgan, Georgetown,
S. C.

Four New Cases at Gulfport.

Jackson, Miss., August 28.—Four
new cases were reported from Gulf-
port this morning making seven al-
together. The infected part of the city lies
one mile from the beach to the north-
ern section and the infection it is be-
lieved is due to Mississippi City, which
is only a few miles distant.

CHARGED WITH MANSLAUGHTER.

Young Man in Florida Arrested Upon
a Very Serious Charge.

Tampa, Fla., August 28.—J. W. Ev-
ans, a prominent young man recently
from Georgia, was arrested here on a
warrant sworn out by his deceased
wife's father, T. C. Smith, former may-
or of Coolidge, Ga., charging him with
manslaughter in causing the death of
his wife by a criminal operation. Ev-
ans was released on \$500 bail. Mrs.
Evans died in May, 1904, and Evans
instituted prosecution against the at-
tending physician, Dr. Hiram S. Hamp-
ton, charging him with manslaughter
by the careless and ignorant perform-
ance of a surgical operation. Dr.
Hampton was convicted in the criminal
court and sentenced to five years in the
penitentiary, later securing a new
trial from the supreme court.

Dr. Hampton now claims to have
discovered evidence that Evans per-
formed a criminal operation on his
wife prior to calling him in as a phy-
sician and that his conviction was the
result of a plot to shield the real cul-
prit and Mrs. Evans' father, upon con-
sidering this evidence, instituted the
prosecution of his son-in-law. Evans
and Smith are members of prominent
families in their section of Georgia.

OFFICIAL IS INDICTED.

Holmes, a Statistician of the Census
Bureau Will Face Jury.

Washington, August 28.—Edwin S.
Holmes, Jr., of Washington, D. C., un-
til recently the associate statistician
of the department of agriculture, but
who was dismissed as an outcome of
the investigation into the leakage
into the cotton crop reports, has been
indicted by the grand jury on a charge
of conspiracy to defraud the govern-
ment.

This announcement was made by
United States District Attorney Mor-
gan H. Bea just after he had re-
turned from New York city, where he
has been instrumental in causing the
arrest of Frederick A. Peckham, the
New York broker, at Saratoga, and
Moses Haas, of New York.

There are two indictments covering
the charges against the three men.

Mr. Bea said that Holmes, who
has been away from Washington for
some time and whose whereabouts
have not been generally known, will be
here Saturday to answer the indict-
ment.

Low Tax Rate in Muscogee.

Columbus, Ga., August 28.—The Mus-
cogee county tax rate, already the low-
est of any county of wealth and im-
portance in the state, will very prob-
ably be still lower this year. The
county commissioners will meet in a
day or two to fix the rate, and it is
understood that the board will reduce
the rate from \$2.70 per \$1,000 to \$2.60.
Thus the combined state and county
tax rate in this country will be \$7.50
the same as last year. The county
commissioners will make this reduc-
tion on account of the slight increase
in the state rate and thus the burden
of taxation upon the people of Mus-
cogee county remains the same. Com-
paratively speaking, it is very light.

Fine Depot for Mobile.

Mobile, Ala., August 28.—After con-
sidering the matter thoroughly, Colo-
nel E. L. Russell, vice president of
the Mobile and Ohio railroad, with
offices in this city, has decided that
the "umbrella" sheds are not "the
thing" as formerly decided, and plans
have been changed so that a continu-
ous shed 600 feet long and 150 feet
wide will be built. The work on the
new depot will begin at once, and rush-
ed with all possible speed. Mr. James
Denson, general superintendent of con-
struction, has arrived in the city direct
from Washington, D. C., and was on
the ground this morning viewing the
land and site. Marge, of Atlanta, is
the architect.

Woman Robs Preacher.

Cleveland, August 28.—On entering
a house to which he had been called
to attend a person said to be critically
ill, Rev. Benedict Rossinski, of St.
Stanislaus Catholic church, was today
set upon by two men and a woman
and robbed of \$1,000 in cash and two
checks for \$50 each. The police have
made three arrests in connection with
the case.

THREE LIVES LOST IN A HOTEL FIRE

Conflagration at Summer Resort
Results Fatally.

5 OTHERS BURNED OR INJURED

The Fire Was Supposed to Have Orig-
inated from a Defective Chimney.
Many Guests Leaped from Windows
Clad in Their Night Attire.

Bradfield, Me., August 28.—Three
persons lost their lives early today
in a fire which destroyed the Acadia
cottage hotel at Lake Umbagog.

Five other persons were burned or
otherwise injured.

The hotel management believe the
bodies are those of Mr. and Mrs. E.
A. Martin, and child of Boston. The
reason that all the other guests
have been located and the bodies re-
spond with theirs.

More than four-score guests and em-
ployes escaped in night attire, many
of them leaping from the windows
clad in their night attire.

That there had been loss of life was
not known until a search of the hotel
during the forenoon revealed the
charred bodies.

The fire, which is supposed to have
been caused by a defective chimney,
spread rapidly throughout the hotel
and a half stories of the wooden struc-
ture. Clerk Boutwell discovered the
flames and aroused all the guests.
In doing this, however, he was fatally
burned.

None of the guests saved their per-
sonal effects. Nearby cottages pro-
vided clothing and shelter for many
of the guests.

The hotel was built 27 years ago
and was owned by the Maine Central
railroad.

Young Man Seeks Watery Grave.

Savannah, Ga., August 28.—A young
man, handsome in appearance and evi-
dently possessing an unusual degree
of refinement and education, whose
name appeared on the passenger list
as J. Wentworth, of Baltimore, jump-
ed from the aft deck of the steamship
Berkshire of the M. & M. Transportation
company's line enroute from Bal-
timore last night and was drowned.
The emergency boat was lowered and
manned immediately by four men.
The searchlight was thrown upon the
water with all dispatch and Captain
Hix, commanding the ship, cast a life-
server out immediately. After a
quarters of an hour's diligent search
during which time no trace of the
man was found, the ship resumed its
course.

Woman in Case Arrested.

Chattanooga, August 28.—A woman
at Rossville arrested Mrs. James
of Spring Place, Ga., on the charge of
murdering her husband, whose body
was found hanging to a post in a
saw mill near Spring Place, 40
weeks ago, where, it was reported,
he committed suicide. Mrs. Lea and
Hix were indicted by the grand
jury of Murray county, Georgia, on
cause of a statement of the
daughter, who told that Hix and
woman killed her father in the
mill. Mrs. Lea came to a suburb of
Chattanooga and later moved to Rossville.
She was taken to Spring Place.

Seaboard Superintendent Resigns.

Norfolk, Va., August 28.—President
James M. Barr, of the Seaboard Air-
Line Railway, has issued a circular
announcing the resignation of
Huger, general superintendent of the
Seaboard system, and the appointment
in his place of Charles H. Nix, gen-
eral division superintendent of the
Seaboard, with headquarters at Norfolk.
The superintendent will be at Norfolk
Va.

Large Orders for Freight Cars.

Mobile, Ala., August 28.—In a re-
bate court there has been an agree-
ment between the Mobile and
Gulfport and Kansas City railroad
and the Guardian Trust company of New York
for the purchase of 500 freight cars.
The amount of value named in the
agreement is \$284,000.

DOWN IN A COAL MINE.

Gas. R. Merchant Witnesses the Digging of Dusky Diamonds.

The many friends of Jimmie Merchant of this city, and bookkeeper in the Daily Sun office for a long time, will be interested in a very entertaining letter from him, written to his uncle, Hon. H. H. McCreary, from Decatur, Ill., under date of August 20th, 1905, in which he gives his experience in a coal mine. He says:

"I have intended writing you several times, but have put it off from time to time, until I am provoked at myself. We have had a most delightful trip and I feel much improved in health. In fact, had it not been for my knee, I should have been much better satisfied."

"Wednesday afternoon Merle and I went down in one of the Decatur coal mines with a cousin of his who is interested in the mining business. We had the mine boss for our guide and he took us down the shaft in a cage for 140 feet. There we reached coal, but before we were where the miners were at work we had to go one and a quarter miles. We got into one of the coal cuts and were pulled by a little mule for half the distance and then walked the rest of the way. When we left the cage we were all given a miner's lamp."

"The mine was altogether different from what I expected to see. I thought that where the coal was being mined would be in a large room, and instead there was nothing but a passage-way about twelve feet wide. The miners all work in a row, each one having a distance of thirty feet to mine. The coal vein is only about 4 1/4 feet thick and all the gravel and rocks that fall with the coal are just dumped back behind them, covering up the place where the coal had been taken out. The passage-way in which the coal is hauled is very low in places, so low that I had to stoop while walking along."

"The mules were all small and just as fat as they could be, but have never seen the light of day. The stables are all under ground 640 feet. The guide told us that they kept in better condition than mules on the top, as the climate down there was always the same both in summer and winter. It was much cooler there than it was on top. It was indeed quite a treat to me to see, but I don't believe that I would care to go down every day."

"I am getting real anxious to get home. Well, will close for this time, hoping to hear from you soon if you are not too busy to write. Give my best regards to all the boys in the office."

"With best wishes, I am as ever,
"Truly yours, JIMMIE"

STEREOPTICON SHOW.

Faculty of University Normal Will Deliver Illustrated Lectures.

A rare treat of more than average interest is in store for the citizens of Gainesville this evening, when, at the Seminary hall, there will be delivered two interesting and instructive illustrated lectures.

Prof. Arthur Williams, a member of the faculty of the University Normal, being professor of history and civics, will open the exercises with a stereopticon lecture on "The Mosquito, and How He Transmits Disease," and "The Coming Eclipse of The Sun," as well as other astronomical subjects.

Prof. Williams will be followed by an address on "The Old World," accompanied by illustrations, which will be delivered by Prof. L. W. Bucholtz, principal of the school, in his own impressive manner.

These exercises will begin at 7:30 o'clock, and a cordial invitation is extended to the public.

Elks Tomorrow Night.

As the time approaches for the installation of Gainesville Lodge No. 990, Brotherhood Protective Order of Elks, the prospective members are becoming a little weak about the knees, many of them beginning to perspire freely already. While the work of the order is said to be very impressive, nevertheless it must have a tinge of tobacco sauce qualities, which makes it "warm" also. However, the "boys" will know more about it and can console each other with more integrity Thursday morning—if they are able to be about."

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

DEATH OF MR. BROWNE.

Passed Away Monday Afternoon, After Illness of Several Months.

A sad death occurred in this city at a late hour Monday afternoon, Gilbert H. Browne having passed away at his home, 203 E. Magnolia street, of a complication of stomach and lung troubles.

Deceased was a native of New England, having been born in Connecticut fifty-three years ago, and has since that time been identified with this State and her interests. Twenty years ago he married Miss Mattie Jernigan, and they have lived happily together. He was a member of the Methodist Episcopal Church, South.

Deceased was a baker by trade, and for many years conducted a profitable and successful business here, retiring only when his health would not permit of continuing the same longer. For several months he has been rapidly failing, and while his death was no surprise, it was naturally a great shock to his friends.

Deceased is survived by a widow and two daughters, Misses Lillian and Sadie, to whom the sympathy of friends is extended.

The funeral services will be held from the residence at 3:30 o'clock this afternoon, Rev. T. J. Nixon officiating, and the following gentlemen are requested to act as pall-bearers: Samuel Mixson, S. J. Burnett, Ferdinand Bayer, Benjamin Dawkins, Mr. Coler and J. H. Vidal. These gentlemen are requested to meet at the residence at 3:15 p. m.

High Springs Notes.

High Springs, Aug. 28.—J. J. Quinlan, a valued employe of the Atlantic Coast Line Railway, has left for a visit to his old home in Rochester, N. Y. This will be his first visit after an absence of seventeen years, and he will doubtless find many changes as his friends will find him changed.

Miss Edith Hunter and daughter, Miss Sue, two of Florida's popular teachers, are enjoying a vacation with friends and relatives at points in North Carolina.

Miss Ella Quinlan is visiting her friend, Miss Edith Hunter, in Quitman, Ga.

Mrs. William Gramling and children left this week for Savannah, Ga., and Asheville, N. C.

Mrs. P. P. Wood and Master Paul, who have been visiting relatives in Blackshear and Savannah, have left for Virginia. Her many friends hope she will return much improved in health.

Mr. and Mrs. Donally and little Miss Iva, and Mrs. Raymond Futch and children, left this week for West Virginia. They expect to be gone until the first of October.

Attention, K. of P.

The regular weekly meeting of Mt. Vernon Lodge No. 20, Knights of Pythias, will be held at the lodge room over Dutton's bank this evening at 8 o'clock, at which a full attendance is desired, and visiting brothers will receive a cordial welcome. There will be work in the Rank of Esquire.

WILL BE GOOD TOWN.

R. H. Jones & Co., Merchants, Think Trenton All Right.

R. H. Jones & Co. is the style of a mercantile firm recently established at Trenton. This firm, which handles a general line, are very hopeful for the future of that town, and in making remittance for some stationery write The Sun as follows:

"Trenton is in a fine country, and there are great things in store for her. When the railroad is finished, and we are placed in touch with the commercial world, we expect not a great rush, but a steady and gradual improvement, in which we trust The Sun will share her well-earned proportion."

The publisher appreciates the good will of these people, and will endeavor always to merit the success it has gained and will continue to gain not only throughout the West End, where it has many friends, but throughout the entire country.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Meeting Fair Association.

A meeting of the Alachua County Fair Association will be held at the office of Tax Assessor W. W. Colson, in the court house, at 4 o'clock this (Tuesday) afternoon, at which a full attendance is desired, as there will be business of importance.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

O., or any church, Sunday school, hospital organization or institution you would wish to own the beautiful library valued at \$500, now on display at G. W. Hyde's.

THE REWARD will be a magnificent library, consisting of 200 volumes of the standard subscription publications of the day as follows: The Great Chas. Dudley Warner "Library of the World's Best Literature," 46 volumes; "Library of the World's Greatest Classics," 30 volumes; the Anglo-American Dictionary and Cyclopaedia, 12 volumes; Library of Oratory, by Depew, 15 volumes; Works of Balzac, 36 volumes; the Library of Poets, 32 volumes; the World's Best Essays, 10 volumes; History of Our Great Commanders, 12 volumes.

Each and every one of these books are specimens of the best mechanical

execution, which examination will prove.

The conditions of the contest are as follows: Any lodge, church or school, club, hospital or organization, public or private, is eligible to the contest. Votes for individuals will not be counted. With each 10 cents purchase a ticket will be given by the merchants through whose liberality these grand libraries are furnished, on which will be written the amount of the purchase and the number of votes. The purchaser will write on the ticket the institution or organization for which he or she desires to vote, sign their names and deposit the ticket in the ballot box in the store in which the purchase is made.

The standing of the contestants will be published exclusively in each Sunday's issue of The Sun until October 14th, 1905, at 7 o'clock p. m., when the remaining votes will be counted and the magnificent library awarded to the organization having the largest number of votes. The Sun will publish in each issue a coupon which will entitle the holder to two votes that will be credited to the institution that is written on space provided for same when delivered to the ballot boxes in either of the stores.

Voting Tickets Can be Secured From the Following Merchants:

Merchants, Note Carefully.

The rules of the contest provide that each merchant shall carefully make a record of his vote on Friday night of each week, sending a duplicate of same to The Daily Sun, on Saturday before noon of each week, over his own signature, including the tickets, carefully wrapping and tying them up in as compact a package as possible; write your own name and date of delivery on each ticket; they can be filed away with your records and delivered to a committee of awards appointed at the close of the contest.

THE SUN'S Voting Proposition.

Under no circumstances will an employe of this paper be allowed to cast a vote in this contest.

We will give a premium of 75 votes for every paid three months' subscription, 200 votes for every paid six months' subscription and 500 votes for every paid subscription for one year to Daily Sun, and 200 votes for one year's subscription to Semi-Weekly Sun. Old subscribers get the same number of votes by paying their subscriptions in advance. Every voter should be a subscriber. To the institution securing the largest number of votes in this manner will award at 7 o'clock p. m., October 14th, 1905, 10,000 votes.

LIBRARY VOTING COUPON.

This coupon entitles the holder to two votes that can be cast for any institution competing for the beautiful library, when properly filled out, signed and returned to the ballot boxes in either of the above stores.

DAMAGE TO COTTON NOT SO SEVERE

As Was First Reported Through-
out the Country.

THE GINS ARE UNUSUALLY BUSY

Many Bales Are Being Turned Out at Alachua Daily—Damage by Rains Will Average Lighter Than Supposed, but Pickers Are in Demand.

It is stated that cotton is now opening in the vicinity of Alachua at a lively rate and a great deal of the staple is being gathered. The gins are all running on full time and many bales of cotton are being turned out daily.

While the continued rains of the few weeks past have naturally resulted in some damage, this damage is not as severe as some have estimated it, being hardly ten per cent in some fields and not more than twenty per cent in the worst cases. Cotton pickers are scarce, and unless this scarcity is relieved, it is believed that equally as much damage will result as from the rains. Some growers, it is said, are paying a dollar a hundred for gathering and it is difficult to secure pickers at that rate.

The caterpillar does not seem as numerous in the northern section of the county as in the east, where the pest put in its appearance several weeks ago. The East End seems more seriously affected by this pest, but some growers used paris green freely and with good result.

In all, the standard crops throughout the county indicate a prolific yield and the Alachua county farmer is better off than some of his neighbors in other sections.

THE YELLOW FEVER.

Twenty-One New Cases and Three Deaths on Monday.

New Orleans, August 28.—The government experts now believe that the crisis is passed and the infection is well in hand. From 6 p. m. on Saturday to 6 p. m. Sunday there were 31 new cases and 13 deaths. The drop in the temperature is explained as the cause of the large death rate on Sunday.

From 6 p. m. yesterday until noon today there were twenty-one new cases and four deaths. Total number of cases to date 1,764 and total deaths 259.

At Other Places.

The health officers at Memphis deny that there is yellow fever there.

The people of Mississippi are excited over the fact that there has been 24 cases at Natchez.

CASE TRANSFERRED.

March DeBose Will be Arraigned for Murder Before Justice Colman.

March DeBose, colored, who was arrested by Sheriff Fennell at Cadillac a few days ago, charged with the murder of Stepney Brown at Orange Heights, mention of which appeared in The Sun, was to have been arraigned in Justice Lumpkin's court at Orange Heights yesterday, but owing to the illness of that official the case was ordered transferred to Justice Colman. DeBose will be arraigned today.

Justice Colman's Court.

The mills of justice were set to grinding in Justice Colman's court Monday and were kept reasonably employed throughout the day.

The first case called was in the morning and occupied most of the forenoon. It was a case in which David Penn was accused by Lucy Richardson of petit larceny, the plaintiff declaring that the defendant "swiped" a quantity of wood from her premises. It was evident to the court that Dave was guilty, but owing to his youth and the fact that it was his first offense, the Justice assessed a fine of only \$5 and costs, but warned him in future to desist from dishonest acts. "I could see plainly throughout this case that there was a nigger in the woodpile," and my own mind tells me it was Dave Penn; but I hope this will be the last time he will ever be brought before me on any charge," remarked the Justice as he instructed Officer Granger to collect the fine.

In the afternoon the Justice gave a machine which was well attended. The curtain rose upon the first act of this play Sunday evening in the vicinity of Frog Alley, when Will Thomas, colored, was severely "walloped," so he claimed, by a quartette of what he termed ruffians, with Harry Prince as "general manager." Prince was the only party arraigned and he was assessed a fine of \$5 and costs, which was paid and the defendant was released.

STOP, WOMAN!

AND CONSIDER
THE ALL-
IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

CAPTAIN SHEHEE'S MISFORTUNE

During His Absence Lost Fine Home and Contents by Fire.

The numerous friends of Captain W. G. Shehee will sympathize with him in the loss of his fine home, together with the contents, at High Springs Wednesday night, and from the current number of The Hornet we take the following:

"An alarm of fire was turned in from Box 55 last Wednesday night about 11:30, when it was discovered that the residence of Capt. W. G. Shehee, on the corner of First South and Ray streets, was on fire. The department responded with its usual promptness, but too late to save the residence. Mr. Shehee was at the time visiting his mother in Alabama, and only his wife and daughter were at home. Considering the house being as well furnished as it was, very little of its contents was saved. The question of insurance is not known, but it is generally supposed there was a small policy on the property. The fire is said to have originated from a defective stove flue. Doubtless the loss is a heavy blow and the family have many sympathizers."

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

Off On a Jaunt.

The Gainesville Junior baseball team left yesterday for High Springs, where in the afternoon they met the Juniors of that town, playing a good game.

This morning the boys will proceed to Live Oak, where a good game is scheduled for today. They expect to return home today.

This Was Some Bats

The following extraordinary bat story is taken from the columns of The Tavares Herald:

"Last Tuesday Mr. St. Clair-Abrams, Mr. Lattimer and Mr. Marzher began a fusillade on the bats that roost in the opera house in the day time and catch mosquitoes at night. After a hundred shots from breech-loading guns the upper floor was literally covered with the little insect exterminators and the next day three large barrels of them were gathered from the floor. Mr. Abrams intends to keep the warfare up until every one is killed. Already a decrease is noticeable as they take their flight at sundown. One hundred sacks and twenty-five barrels of guano have been gathered from the floor, which is the equal of Peruvian guano. Mr. Abrams has sold it to the Gainesville factory. After the bats are exterminated the building will be thoroughly fumigated."

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. J. W. McCullom & Co.

Brick Layers Want Increase.

New York, August 28.—Negotiations have been opened by the local unions of brick layers for an advance in wages when their present agreement with the mason builders association expires at the end of this year. At present the pay is 75 cents an hour, with double price for overtime. When they work 12 hours a day the men are paid \$11.20. As there is a great demand for men it is stated that 75 an hour will be asked. A meeting has been arranged to take up the matter next week, but the builders declare the wage limit has been reached and instead of an increase they favor a reduction of 5 cents an hour.

Peculiar Disappearance.

J. D. Runyan of Buttermilk, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at all drug stores; price 25c.

Heavy Cotton Receipts at Macon.

Macon, Ga. August 28.—Macon will have received nearly 1,000 bales of new cotton at the close of warehouse hours Saturday. One firm alone has received nearly one-half of this amount and the daily receipts at all warehouses in Macon are soon to grow very rapidly. Farmers are, however, slow in their sales. Few large cotton deals have been made here during the past month and despite the fact that the price is now above 10 cents, there is little inclination to place the new cotton on the market.

Yacht Burns to Water's Edge.

Mobile, Ala. August 28.—News was received here last night that the fine yacht *Marguadora*, owned by President T. P. Shonts, of the Panama canal commission, had burned at Carrabelle, Fla. The destruction was complete. The boat was burned to the water's edge and will not be rebuilt. The cause of the fire is said to have been from an explosion in the engine room. There was no insurance on the boat and no lives were lost.

CATARRH A UNIVERSAL DISEASE

Catarrh usually begins with a cold in the head, but does not stop there. The mucous membranes all become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and distributed to all parts of the body. The patient is then continually hawking and spitting, the nose is stopped up, the ears have a ringing or buzzing noise, the throat becomes sore, and as the unhealthy matter more thoroughly saturates the blood a general feeling of despondency takes possession of the system.

I had Catarrh for about fifteen years, and no man could have been worse. I tried everything I could hear of, but no good resulted. I then began S. S. S., and could see a little improvement from the first bottle, and after taking it a short while was cured. This was six years ago, and I am as well today as any man. I think Catarrh is a blood disease, and know there is nothing on earth better for the blood than S. S. S. Nobody thinks more of S. S. S. than I do. Lapeer, Mich. M. MATSON.

Local applications cannot cure Catarrh, because they do not reach the seat of the trouble. They allay the inflammation and temporarily relieve the disease, but as soon as they are left off the trouble returns. The only way to cure Catarrh is to treat it through the blood. S. S. S. soon clears the blood of all Catarrhal matter and purges it of all irritating poisons, checks further progress of the trouble and completely cures the disease. S. S. S. keeps the blood in perfect order so that it can eliminate from the system all waste matter that will produce Catarrh. Nothing equals this great vegetable remedy in the cure of this disease. Write for our book and any medical advice you wish. We make no charge for either.

News comes from Arcadia to the effect that all is ready for the execution of Cooper, who was sentenced to hang on September 1st. It will be remembered that Cooper was convicted a year ago for the murder of ex-Sheriff Fielders and sentenced to hang. He was granted a reprieve and his case went before the pardoning board, but pardon was refused.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

To Study Tropical Diseases.

San Francisco, August 28.—Sir Patrick Manson, medical adviser to the British colonial office and recognized authority on tropical diseases, in a speech before the board of directors of the merchants' association of this city, outlined his theory that yellow fever may yet become a source of worry here in the changed trade conditions which will follow the completion of the Panama canal, urging the futility of what now passes as quarantine either in yellow fever or the bubonic plague. Owing to advantages that San Francisco possesses over London for the study of tropical diseases, an advantage due to the fact that it has a colony of 10,000 Chinese as well as many Japanese, Filipinos and Hawaiians, he suggested that a school should be established here for the study of tropical medicine.

Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Boycott Paralyzed Flour Trade.

Seattle, Wash., August 28.—Advice received by a large milling company of this city, from its agent in Hong Kong, state that the Chinese boycott of American goods has completely paralyzed the flour trade between the Pacific ports and China. No sales have been made since July 15 and all orders for September have been cancelled. The company's agent writes that the breadmakers in the bakery shops of Canton and Hong Kong refused to handle American flour and the smaller dealers dare not purchase it for this reason. The trade with the straits settlements and Indo-China is also threatened by reason of the fact that the flour supply for these countries is controlled wholly by Chinese merchants.

The President went down in the Plunger and was called a hero. Russia has several thousand heroes over in the sea of Japan.

The floods in Illinois have been quite bad of late. A woman went to haul in a clothes line and found a catfish on the end of the line.

It is now stated that radium is a failure as a germ destroyer. But it is all right for exhibition purposes and as such is a drawing card.

The planting of shade trees along the highways should be looked after, and people who wish to make the country beautiful can do it in no better way.

If the ten-year marriages should come into vogue, there will possibly become fellows who would want a time clause inserted for good behavior.

Some papers are in politics all the time. They make so many foolish statements in one campaign that it keeps them busy until the next one opens up to share themselves.

Distinct must have something to do with some people. In the majority of cases where fellows have not seen enough, apparently, to know right from wrong, they are invariably called good.

George F. Baer is the same species as the Russian bear, uses the same letters in spelling, but only placed differently. But when it comes to having feelings for humanity there is little choice.

In the peace conference there seems to be a desire to come to some understanding, and both manifest a desire for an agreeable termination. Komura says: "Let's have something," whereupon M. Witte replied, "Give me vodka."

President Roosevelt took a trip to the bottom of the sea a few days ago in the submarine boat "Plunger." It is thought by some that his peace negotiations between Russia and Japan must have went down with him and the boat in some manner down there.

A majority of the Russian people may be opposed to peace, a large majority also being against the government. With peace the revolutionists would have to work at a disadvantage. With the Czar watching the Japs he will not be able to keep his eye on the fellows with bombs in their inside pockets so closely.

The Daytona Gazette-News will be incorporated hereafter, with C. M. Graham, Jr., president, and T. E. Fitzgerald, secretary and treasurer. The company will be capitalized at \$10,000 and the daily will be issued during the winter as in the past. T. E. Fitzgerald will once more resume the editorial management and the paper, while in the hands of the new management, will be published as usual.

WAR MUST STOP.

Japan wants an indemnity to stop the war and Russia does not enjoy the idea of being humiliated by paying money to the Japs. But the resources of the two countries are nearing the limit and it is quite certain they cannot stand the strain much longer. Especially is this the case with Japan.

Russia has enormous resources, however, but her great drawback is lack of leaders, men without efficiency and courage. On the other hand, Japan has developed a superb leadership from the Emperor downward. Her government is characterized by the highest degree of courage and efficiency. This has been abundantly demonstrated in both war and peace. Her leaders are masterful men both in the military art and in finance. One of our great bankers who has been brought into contact with the Japanese of late testifies to his surprise of their wonderful financial talent. Physicians are sounding the praises of Japanese surgeons during the war. Our statesmen are testifying to the ability of the Japanese statescraft. The whole world has witnessed Japanese victories on land and sea with wonder and admiration. But, on the other hand, Japan has meagre resources. She has reached a point where the revenues will be a burden that the people cannot withstand.

There may be more talk yet at Portsmouth, but if they fail to agree on terms, there is a certainty that they will be confronted by those who control the great money markets, that not one cent more will be furnished them to continue hostilities.

AN AGE OF MILLIONS.

This is truly an age of millions, says one of the leading dailies of the East. Fortunes are no longer expressed by thousands but by millions. Now a man is no longer rich who has amassed a few thousands of dollars; and he may possess even a million and consider himself poor. A million dollar stock company no longer excites wonder. Our great companies are capitalized for hundreds of millions. The transactions of trade and transportation and banking are so enormous, amounting in the course of the year to billions of dollars, that statisticians are obliged in making comparisons to drop three and even six ciphers and give figures in millions of dollars.

But in nothing else is the immensity of our wealth and power more striking than in our philanthropies. Money is now given away as well as acquired in millions of dollars. A gift of thousands of dollars no longer excites any particular notice. Millions are given in one lump for libraries and colleges and hospitals with a lavishness and abandonment that is most astonishing. So common have gifts of millions of dollars become that Dr. Harper's announcement of an anonymous benefaction of \$6,000,000 for the Chicago University is regarded as scarcely important enough as a matter of news to require more than two "sticks" of matter in the newspapers. Even an automobile accident takes precedence.

By reference to chapter 4957, page 101, of the acts of 1901, Laws of Florida, it will be noticed that "An act for the protection of birds and their nests and eggs" makes it unlawful to kill bull-bats, which are being slaughtered by the hundreds in some sections. What are considered game birds can be killed in season, but the bull-bats are not in this list, and persons proven guilty of their destruction are liable to a fine of five dollars for each offense, and an additional fine of five dollars for each bird, living or dead, or part of such bird, or nest and eggs possessed in violation of this act. Bull-bats are included in this act, and offenders should take warning.

The best evidence that Gainesville is growing is the fact that of all the hundred or upwards of houses of all sides built here this summer, there is not a vacant one in the city.

What's fame? Some papers become famous from being called yellow although they are plain black and white, while others dash in an occasional red-headed article to attract attention. Some are illustrated, while others use rose-tinted or pink paper to draw the eye of people looking for something out of the ordinary. The Police Gazette is highly illustrated and printed on pink paper, and although it is under a ban and is not circulated with impunity or consent of the postoffice as freely as it used to be, it is still sought by many in barber shops and other places where it used to be found. A few days ago a fellow stepped into a toulousal parlor in this city, saw a "pink paper" on the reading table and said: "Let me see that Police Gazette." The barber looked up and said: "Beg pardon; this is The East Coast Advocate, printed on pink paper, yet it may answer the purpose in every way except pictures."

The Bartow Record is opposed to betting at ball games. But what are you going to do if you say before you think, "I bet a dollar Bartow wins," and a fellow takes the bet as quick as you have spoken? It's a hard matter to stop betting.

There must be peace as there will be several pieces of the Russian Empire.

Rheumatism

Like Neuralgia, is now known to be a nervous disease. The kidneys become weak through lack of nerve energy, and fail to filter the uric acid from the blood; this acid attacks and burns the nerves and muscles, and consumes the oil in the joints, producing inflammation, fever, swelling—pain.

To cure Rheumatism, then, you must restore the kidney nerves and muscles, and neutralize the effect of the acid upon the joints and tissues with Dr. Miles' Restorative Nervine, a nerve medicine, which has made many cures of this painful disease. Nervine strengthens the kidney nerves and increases the circulation, and relief is assured.

"Before I took Dr. Miles' Nervine, I had been looking for a cure for Rheumatism for 25 years. The last time I was laid up for several months, could not get out of bed or set foot on the floor. I tried remedies to rub in, to drink, doctors' prescriptions, etc., but none of them had any effect. One day I read about Dr. Miles' Nervine and got a bottle. After the first dose I had a good night's rest, and after taking half a bottle the pains disappeared, and I went out and walked all around the town. In a week I went to work, and was perfectly cured, but continued to take the medicine for a time, to make sure the pains would not come back."

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

No Clue to Foul Play.

Decatur, Ga., August 28.—The coroner's jury which has been investigating the deaths of the white man named Griffin and the white woman Rosa Thompson, whose charred remains were found among the ruins of a burned dwelling near East Atlanta, this (DeKalb) county, last Saturday night, met at the court house here and returned a verdict that the parties met their deaths from causes unknown. Marshal W. T. Buchanan of Edgewood had been working upon the case thinking perhaps there was foul play, that the couple had been murdered and the building set afire to cover up the crime. After thoroughly investigating the matter not the slightest clue to foul play could be found. Coroner R. M. Jones had charge of the inquest.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

Negroes Commend Burning.

Chicago, August 28.—A dispatch to the Record-Herald from Dallas, Tex., says that the burning at the stake of Tom Williams, a negro, for attacking a white woman, was commended at the state convention of negro Baptists here yesterday. Rev. Jackson, of Dallas, Tex., declared that if any action was taken by the convention in reference to the lynching, a resolution should be passed commending the whites. Other pastors asserted the negroes aided the whites in the capture of Williams. Every law-abiding citizen was said to be in favor of lynch law in cases of the kind. The convention refused to pass resolutions denouncing the burning.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

Thirteen Lives Lost in Flood.

Trinidad, Colo., August 28.—Thirteen lives are known to have been lost in the flood caused by the cloud-burst near Tobasco and Berwyn, in the canyon north of this city, and the list of dead may be increased. Reports are still current that more than 30 persons are missing. They are many foreigners who were employed in the coal mines. Twenty-nine houses were washed away at Tobasco, 21 one which were occupied by Italians and eight by Americans.

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by all druggists.

Connect Atlantic and Pacific.

San Francisco, August 28.—William Rosser, a planter, who has arrived here from Manzanillo, says that work has been started after a delay of 12 years on the connecting link on the railroad that will reach from the Atlantic to the Pacific across Mexico. The length extends from Colima to Tuxpan, a distance of only 45 miles. It will be the first railroad connecting Guadalajara and the Pacific coast.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving me first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, \$1.00. Sold by W. M. Johnson.

REPORT OF DISTURBANCES.

Police Department Thoroughly Investigate Trouble.

Petersburg, August 28.—The police department has drawn up reports of the disturbances among the Letts, in the Baltic provinces which of late have assumed an anarchical character.

Within four months in towns of the province of Courland and Livonia there have been four attempts on the lives of four officials, attacks on private persons, six attempts against the lives of police officers, three attacks on churches, and three cases in which bombs were thrown.

At Riga an attempt was made to set fire to the powder stores in a carriage factory. The report says that the Lutheran churches demonstrated by the Lutherans were begun and repeated every day in May and June, and that the agitators supplied the peasants with weapons of which they obviously possessed an extensive supply. In Milwaukee the anarchists in one day destroyed the archives in nine districts, throwing the documents, the seals and portraits of the employer into the street. Attempts to damage railroad lines, the reports say, have been numerous of late.

INDICTED FOR LAND FRAUD.

Prominent People Engaged in Defrauding the Government.

Portland, Ore., August 28.—The federal grand jury investigating the Oregon land frauds, has returned true bills against Claude F. Thayer, the Tillamook capitalist, son of former Governor Thayer, of this state, together with several other operators indicted with him.

The significance of this action is emphasized by the fact that when the indictment was returned there remained but six hours until the law would have been powerless to reach the crime. In September, 1899, approximately 100 persons made filings at Oregon City and office to enter timber lands in Tillamook county, the lands being situated in the famous Nehalem valley. It is alleged that Claude Thayer and his associates had secured a purchase and the net profits were to be divided. The allegations of fraud in the affidavits of contest which were subsequently filed led to the order for an investigation. These cases involved more money value in timber lands than all the cases which have been tried so far.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and \$1; guaranteed. Went to Prison to Save Woman.

New York, August 28.—As strange a story as that constituting the plot of any novel will be told to Governor Higgins, of New York, by a New York city lawyer when he endeavors to secure the pardon of a man who chose to serve a sentence of three years' imprisonment in Sing Sing prison, for theft, of which he was innocent, to shield the name of a woman from scandal. Carl Fisher-Hansen, the lawyer said that he would appeal for the pardon of the prisoner, whose name he would not reveal, at the request of the woman, whose reputation the prisoner had saved at the expense of his own liberty.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

Well Known Actress Dead.

New York, August 28.—Mrs. William Redmond, formerly a well known actress, died yesterday at her home in Piermont, N. Y., from a complication of diseases. She was better known by her stage name, Mrs. Thomas Barry. Mrs. Redmond, for many years, was connected with the Boston theater. She was born in England and came to America in 1864. Mrs. Redmond was the leading lady of the Globe theater in Boston when it burned in 1873.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, June 8, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and \$1. Sold by W. M. Johnson.

Guerillas Hold Reunion.

Kansas City, Mo., August 28.—Cole Younger, the former bandit, was the central figure at the annual reunion of the survivors of Quantrell's guerillas at Independence, Mo. Half a hundred members of the band, including besides Younger, Jim Cummings, who was noted after the civil war, as members of the James and Younger gang; D. Hughes of Hughes, Ark. and Lieutenant Lee Miller, of Knob Noster, Mo., were present.

Fiendish Suffering

Is often caused by sores, ulcers and cancers, that eat away your skin. Wm. Bedell of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve for ulcers, sores and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at all drug stores; guaranteed.

Denver, Colorado, and Return Only \$38.85 Via L. & N. R. R.

READ THIS.

DOTHAN, ALA., JULY 13, 1899.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: We have been selling your Texas Wonder, Hall's Great Discovery, for two years and recommend it to anyone suffering with kidney trouble as being the best remedy we ever sold. Yours truly, J. B. Youso.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 329, St. Louis, Mo. Send for testimonials. Sold by all druggists.

J. S. Bailey of Newberry and John G. Dampier of Hague were among the visitors to the county capital yesterday.

Lost—One brooch, set with pearls, and one wish-bone stick pin, set with opals. Suitable reward. Return to Sun office.

GAINESVILLE, - - - FLORIDA

Mr. and Mrs. George W. Hyde, Mrs. Geo. Estabrook, Mrs. Annie J. Browne and Miss Bessie Manning formed a party which left this city last night for Worthington Springs, where they expect to remain for a few days.

Rev. T. J. Nixon of the Methodist church left yesterday for Wacahoota, where he intended to assist Rev. A. M. Digger in a series of meetings, but was called back on the sad mission of the death of one of the members of his church, G. H. Browne. He may return tomorrow, however.

J. S. Jolly returned yesterday from Worthington Springs, to which place he accompanied his good wife Saturday. Mrs. Jolly remained at the Springs, where she expects to spend several days. Mr. Jolly states that the spring was never in better condition and the bathing is thoroughly enjoyed by the visitors.

Mr. and Mrs. T. J. Blalock of Madison, after a delightful visit to Rev. and Mrs. T. J. Nixon in this city, left yesterday for Ocala, where they will be guests of their daughter, Mrs. W. C. Bull. This estimable couple have made many friends here who regretted to see them leave, but hope to have the pleasure of meeting them again at no distant day.

Registration Notice.—Notice is hereby given that the registration books of the City of Gainesville are now open at my office in the United States land office, where all persons qualified to register, including residents of the new territory added to the corporate limits of the city by the new charter enacted by the last Legislature, may register between the hours of 8 and 12 a. m. and 1 and 4 p. m. Books close on Saturday, September 9th, 1905. J. M. DALL, City Clerk.

Game Didn't Materialize.

A series of two games between the Gainesville and Ocala baseball teams, colored, were advertised to be pulled off on the local diamond Monday and Tuesday, but owing to the failure of the Brick City players to show up, the game Monday afternoon did not materialize. This was quite a disappointment, since they were treated in the same manner by DeLand a few weeks ago.

If the Ocala team arrives today, the game will be called at 3:30 o'clock.
